CONTENTS

Chapter 1

1.1	Whole Numbers	Page 1
1.2	Rounding Whole Numbers	Page 8
1.3	Adding Whole Numbers	Page 14
1.4	Subtracting Whole Numbers	Page 22
1.5	Multiplying Whole Numbers	Page 31
1.6	Dividing Whole Numbers (Part I)	Page 42
1.7	Dividing Whole Numbers (Part II)	Page 48
1.8	Exponents, square roots, and the order of operations	Page 56

Chapter 2

2.1	Divisibility tests, factors, and primes	Page 65
2.2	Introduction to fractions	Page 74
2.3	Reducing fractions	Page 84
2.4	Multiplying fractions	Page 93
2.5	Dividing fractions	Page 102
2.6	Area of rectangles, triangles, and parallelograms	Page 111

Chapter 3

3.1	Least Common Multiple	Page 119
3.2	Adding and subtracting like fractions	Page 125
3.3	Equivalent fractions and least common denominators	Page 131
3.4	Adding and subtracting unlike fractions	Page 138
3.5	Adding and subtracting mixed numbers	Page 145

Chapter 4

4.1	Introduction to decimals	Page 155
4.2	Rounding and comparing decimals	Page 163
4.3	Converting fractions into decimal format	Page 171
4.4	Adding and subtracting decimals	Page 177
4.5	Multiplying decimals	Page 183
4.6	Dividing decimals	Page 190

Chapter 5

5.1	Ratios	Page 199
5.2	Percent and decimal formats	Page 204
5.3	Percent applications (Part I)	Page 210
5.4	Percent and fraction formats	Page 219
5.5	Percent applications (Part II)	Page 226

Chapter 6

6.1	Rates	Page 233
6.2	Directly proportional relationships	Page 239
6.3	U.S. customary units	Page 246

Appendix

Answers to the odd problems	Page 253
Index	Page 260
